---

## 1. Aims

Our school aims to:

- Have robust processes in place to ensure the online safety of pupils, staff, volunteers and governors
- Deliver an effective approach to online safety, which empowers us to protect and educate the whole school community in its use of technology, including mobile and smart technology (which we refer to as 'mobile phones')
- Establish clear mechanisms to identify, intervene and escalate an incident, where appropriate

### The 4 key categories of risk

Our approach to online safety is based on addressing the following categories of risk:

- **Content** – being exposed to illegal, inappropriate or harmful content, such as pornography, fake news, racism, misogyny, self-harm, suicide, antisemitism, radicalisation and extremism
- **Contact** – being subjected to harmful online interaction with other users, such as peer-to-peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes
- **Conduct** – personal online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images (e.g. consensual and non-consensual sharing of nudes and semi-nudes and/or pornography), sharing other explicit images and online bullying; and
- **Commerce** – risks such as online gambling, inappropriate advertising, phishing and/or financial scams

## 2. Legislation and guidance

This policy is based on the Department for Education's (DfE's) statutory safeguarding guidance, [Keeping Children Safe in Education](#), and its advice for schools on:

- [Teaching online safety in schools](#)
- [Preventing and tackling bullying](#) and [cyber-bullying: advice for Headteachers and school staff](#)
- [Relationships and sex education](#)
- [Searching, screening and confiscation](#)

It also refers to the DfE's guidance on [protecting children from radicalisation](#).

It reflects existing legislation, including but not limited to the [Education Act 1996](#) (as amended), the [Education and Inspections Act 2006](#) and the [Equality Act 2010](#). In addition, it reflects the [Education Act 2011](#), which has given teachers stronger powers to tackle cyber-bullying by, if necessary, searching for and deleting inappropriate images or files on pupils' electronic devices where they believe there is a 'good reason' to do so.

The policy also takes into account the National Curriculum computing programmes of study.

This policy complies with our funding agreement and articles of association.

## 3. Roles and responsibilities

### 3.1 The governing board

The governing board has overall responsibility for monitoring this policy and holding the Headteacher to account for its implementation.

The governing board will coordinate regular meetings with appropriate staff to discuss online safety, and monitor online safety logs as provided by the designated safeguarding lead (DSL).

The governor who oversees online safety is Jan Atkinson

All governors will:

- Ensure that they have read and understand this policy
- Agree and adhere to the terms on acceptable use of the school's ICT systems and the internet (appendix 2)
- Ensure that online safety is a running and interrelated theme while devising and implementing their whole school or college approach to safeguarding and related policies and/or procedures
- Ensure that, where necessary, teaching about safeguarding, including online safety, is adapted for vulnerable children, victims of abuse and some pupils with SEND because of the importance of recognising that a 'one size fits all' approach may not be appropriate for all children in all situations, and a more personalised or contextualised approach may often be more suitable

### 3.2 The Headteacher

The Headteacher is responsible for ensuring that staff understand this policy, and that it is being implemented consistently throughout the school.

### 3.3 The designated safeguarding lead

Details of the school's designated safeguarding lead (DSL) and deputies are set out in our child protection and safeguarding policy as well as relevant job descriptions.

The Deputy Headteacher Inclusion and the Subject Leader for Computing take joint responsibility for online safety in school, in particular:

- Supporting the Headteacher in ensuring that staff understand this policy and that it is being implemented consistently throughout the school
- Working with the Headteacher, ICT manager and other staff, as necessary, to address any online safety issues or incidents
- Managing all online safety issues and incidents in line with the school child protection policy
- Ensuring that any online safety incidents are logged (see appendix 4) and dealt with appropriately in line with this policy
- Ensuring that any incidents of cyberbullying are logged and dealt with appropriately in line with the school behaviour policy
- Updating and delivering staff training on online safety (appendix 3 contains a self-audit for staff on online safety training needs)
- Liaising with other agencies and/or external services if necessary
- Providing regular reports on online safety in school to the Headteacher and/or governing board

This list is not intended to be exhaustive.

### 3.4 The ICT manager

The ICT manager is responsible for:

- Putting in place an appropriate level of security protection procedures, such as filtering and monitoring systems, which are reviewed and updated on a regular basis to assess effectiveness and ensure pupils are kept safe from potentially harmful and inappropriate content and contact online while at school, including terrorist and extremist material
- Ensuring that the school's ICT systems are secure and protected against viruses and malware, and that such safety mechanisms are updated regularly
- Conducting a full security check and monitoring the school's ICT systems using a range of systems
- Blocking access to potentially dangerous sites and, where possible, preventing the downloading of potentially dangerous files

### 3.5 All staff and volunteers

All staff, including contractors and agency staff, and volunteers are responsible for:

- Maintaining an understanding of this policy
- Implementing this policy consistently
- Agreeing and adhering to the terms on acceptable use of the school's ICT systems and the internet (appendix 2), and ensuring that pupils follow the school's terms on acceptable use (appendix 1)
- Working with the DSL to ensure that any online safety incidents are logged (see appendix 4) and dealt with appropriately in line with this policy
- Ensuring that any incidents of cyber-bullying are dealt with appropriately in line with the school behaviour policy
- Responding appropriately to all reports and concerns about sexual violence and/or harassment, both online and offline and maintaining an attitude of 'it could happen here'

This list is not intended to be exhaustive.

### 3.6 Parents

Parents are expected to:

- Notify a member of staff or the Headteacher of any concerns or queries regarding this policy
- Ensure their child has read, understood and agreed to the terms on acceptable use of the school's ICT systems and internet (appendix 1)
- Report to the school any concerns they have identified through their child's online activity

Parents can seek further guidance on keeping children safe online from the following organisations and websites:

- What are the issues? – [UK Safer Internet Centre](#)
- Hot topics – [Childnet International](#)
- Parent resource sheet – [Childnet International](#)

### 3.7 Pupils

Pupils are expected to:

- follow the school's code of conduct on and off line
- show respect to everyone
- use mobile devices according to guidance on privacy settings, age ratings, conduct, contact and content
- report any concerns to the school and the appropriate social network and follow guidance given

### 3.8 Visitors and members of the community

Visitors and members of the community who use the school's ICT systems or internet will be made aware of this policy, when relevant, and expected to read and follow it. If appropriate, they will be expected to agree to the terms on acceptable use (appendix 2).

## 4. Educating pupils about online safety

In **Key Stage 3/4**, pupils will be taught to:

- Understand a range of ways to use technology safely, respectfully, responsibly and securely, including protecting their online identity and privacy
- Recognise inappropriate content, contact and conduct, commerce, and know how to report concerns
- To understand how changes in technology affect safety, including new ways to protect their online privacy and identity
- How to report a range of concerns

By the **end of secondary school**, pupils will know:

- Their rights, responsibilities and opportunities online, including that the same expectations of behaviour apply in all contexts, including online
- About online risks, including that any material someone provides to another has the potential to be shared online and the difficulty of removing potentially compromising material placed online
- Not to provide material to others that they would not want shared further and not to share personal material which is sent to them
- What to do and where to get support to report material or manage issues online
- The impact of viewing harmful content
- That specifically sexually explicit material (e.g. pornography) presents a distorted picture of sexual behaviours, can damage the way people see themselves in relation to others and negatively affect how they behave towards sexual partners
- That sharing and viewing indecent images of children (including those created by children) is a criminal offence which carries severe penalties including jail
- How information and data is generated, collected, shared and used online
- How to identify harmful behaviours online (including bullying, abuse or harassment) and how to report, or find support, if they have been affected by those behaviours
- How people can actively communicate and recognise consent from others, including sexual consent, and how and when consent can be withdrawn (in all contexts, including online)

The safe use of social media and the internet will also be covered in other subjects where relevant.

Where necessary, teaching about safeguarding, including online safety, will be adapted for vulnerable children, victims of abuse and some pupils with SEND.

## 5. Educating parents about online safety

The school will raise parents' awareness of internet safety in letters or other communications home, and in information via our website, and through parental meetings if necessary. This policy will also be shared with parents.

If parents have any queries or concerns in relation to online safety, these should be raised in the first instance with the Headteacher and/or the DSL.

Concerns or queries about this policy can be raised with any member of staff or the Headteacher.

## 6. Cyber-bullying

### 6.1 Definition

Cyber-bullying takes place online, such as through social networking sites, messaging apps or gaming sites. Like other forms of bullying, it is the repetitive, intentional harming of 1 person or group by another person or group, where the relationship involves an imbalance of power. (See also the school behaviour policy.)

### 6.2 Preventing and addressing cyber-bullying

The school clearly communicates a whole-school commitment to addressing bullying in the form of a written statement which is regularly promoted across the whole school.

- Pupils will be taught how to report any instances of bullying/cyber bullying
- All reported instances of cyber bullying will be managed through the anti-bullying policy.
- Staff will encourage pupil cooperation and the development of interpersonal skills using group and pair work.
- Cyber bullying will be discussed as part of the curriculum.
- Diversity, difference and respect for others is promoted and celebrated through various lessons.
- Seating plans will be organised and altered in a way that prevents instances of bullying/cyber bullying.
- All members of the school are made aware of the cyber-bullying/bullying policy and their responsibilities in relation to it.
- All staff members receive training on identifying and dealing with the different types of bullying/cyber bullying.
- Pupils deemed vulnerable will be supported by their form tutor to ensure any problems can be actioned quickly.
- Staff will also offer an 'open door' policy allowing pupils to discuss any bullying, whether they are victims or have witnessed an incident.
- Before a vulnerable pupil joins the school, the pupil's Year Manager and the DSL will develop a strategy to prevent bullying/cyber bullying from happening.
- The school will be alert to, and address, any mental health and wellbeing issues amongst pupils, as these can be a cause of bullying behaviour.

- The school will ensure potential perpetrators are given support as required, so their educational, emotional and social development isn't negatively influenced by outside factors, e.g. mental health issues.

### 6.3 Examining electronic devices

School staff (the Safeguarding team or year teams as directed by the Headteacher or deputy Headteacher) refer to the behaviour for learning policy and have the specific power under the Education and Inspections Act 2006 (which has been increased by the Education Act 2011) to search for and, if necessary, delete inappropriate images or files on pupils' electronic devices, including mobile phones, iPads and other tablet devices, where they believe there is a 'good reason' to do so.

When deciding whether there is a good reason to examine or erase data or files on an electronic device, staff must reasonably suspect that the data or file in question has been, or could be, used to:

- Cause harm, and/or
- Disrupt teaching, and/or
- Break any of the school rules

If inappropriate material is found on the device, it is up to the staff member in conjunction with the DSL or other member of the senior leadership team to decide whether they should:

- Delete the material, or
- Retain it as evidence (of a possible criminal offence\* or a breach of school discipline), and/or
- Report it to the police\*\*

\* If a staff member **believes** a device **may** contain a nude or semi-nude image or an image that it's a criminal offence to possess, they will not view the image but will report this to the DSL (or equivalent) immediately, who will decide what to do next. The DSL will make the decision in line with the DfE's latest guidance on [screening, searching and confiscation](#) and the UK Council for Internet Safety (UKCIS) guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#).

\*\* Staff will also confiscate the device to give to the police, if they have reasonable grounds to suspect that it contains evidence in relation to an offence.

Any searching of pupils will be carried out in line with:

- The DfE's latest guidance on [searching, screening and confiscation](#)
- UKCIS guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#)

Any complaints about searching for or deleting inappropriate images or files on pupils' electronic devices will be dealt with through the school complaints procedure.

## 7. Acceptable use of the internet in school

All pupils, parents, staff, volunteers and governors are expected to sign an agreement regarding the acceptable use of the school's ICT systems and the internet (appendices 1 and 2). Visitors will be expected to read and agree to the school's terms on acceptable use if relevant.

Use of the school's internet must be for educational purposes only, or for the purpose of fulfilling the duties of an individual's role.

We will monitor the websites visited by pupils, staff, volunteers, governors and visitors (where relevant) to ensure they comply with the above.

More information is set out in the acceptable use agreements in appendices 1 and 2.

## **8. Pupils using mobile devices in school**

The school will not allow mobile devices to interfere with teaching and learning. Pupils are allowed to bring mobile phones into school, but they must not be seen around the school and should be switched off and out of sight. (The only exception to this rule applies when students might be directed by the class teacher to use their phone to support learning in the classroom.)

If mobile phones and other mobile devices are seen in a lesson they will be confiscated by the member of staff and handed into the year office, or via SPS, for collection. If a mobile phone is seen around school at other times it will be confiscated by the appropriate member of staff and handed into the year office.

Students can collect the phone at the end of the day. If a student refuses to hand over their phone, this will be seen as defiant behaviour and they will be sanctioned. Refusal to hand over a mobile phone that is visible, or which has disrupted learning in any way will be sanctioned in accordance with the behaviour policy.

If a student has their phone confiscated more than twice in a term, on the third occasion their parent or carer will be asked to collect the phone from the school.

**The use of any device by students, parents or visitors to photograph, record or video in school without permission is not allowed.**

Any use of mobile devices in school by pupils must be in line with the acceptable use agreement (see appendix 1).

Any breach of the acceptable use agreement by a pupil may trigger disciplinary action in line with the school behaviour policy, which may result in the confiscation of their device.

## **9. Staff using work devices outside school**

### **Use of computers, email and the internet and social media**

The Trust recognises that electronic devices and media are important tools and resources in an educational context and can save time and expense.

Those using the Trust's equipment and networks are expected to do so responsibly and to comply with all applicable laws, policies and procedures, and with normal standards of professional and personal courtesy and conduct.

Personal use of social media and other on-line applications which may fall into the public domain should not be such that it could bring the Trust into disrepute and/or call into question an individual's suitability to work with children.

All staff members will take appropriate steps to ensure their devices remain secure. This includes, but is not limited to:

- Keeping the device password-protected – strong passwords are at least 8 characters, with a combination of upper and lower-case letters, numbers and special characters (e.g. asterisk or currency symbol)
- Ensuring their hard drive is encrypted – this means if the device is lost or stolen, no one can access the files stored on the hard drive by attaching it to a new device
- Making sure the device locks if left inactive for a period of time
- Not sharing the device among family or friends
- Installing anti-virus and anti-spyware software
- Keeping operating systems up to date by always installing the latest updates

Staff members must not use the device in any way which would violate the school's terms of acceptable use, as set out in appendix 2.

Work devices must be used solely for work activities.

If staff have any concerns over the security of their device, they must seek advice from the IT team via the helpdesk.

## 10. How the school will respond to issues of misuse

Where a pupil misuses the school's ICT systems or internet, we will follow the procedures set out in our behaviour for learning policy and ICT and internet acceptable use. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident, and will be proportionate.

Where a staff member misuses the school's ICT systems or the internet, or misuses a personal device where the action constitutes misconduct, the matter will be dealt with in accordance with the staff code of conduct. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident.

The school will consider whether incidents which involve illegal activity or content, or otherwise serious incidents, should be reported to the police.

## 11. Training

All new staff members will receive training, as part of their induction, on safe internet use and online safeguarding issues including cyber-bullying and the risks of online radicalisation.

All staff members will receive refresher training at least once each academic year as part of safeguarding training, as well as relevant updates as required (for example through emails, e-bulletins and staff meetings).

By way of this training, all staff will be made aware that:

- Technology is a significant component in many safeguarding and wellbeing issues, and that children are at risk of online abuse
- Children can abuse their peers online through:
  - Abusive, harassing, and misogynistic messages
  - Non-consensual sharing of indecent nude and semi-nude images and/or videos, especially around chat groups
  - Sharing of abusive images and pornography, to those who don't want to receive such content

- Physical abuse, sexual violence and initiation/hazing type violence can all contain an online element

Training will also help staff:

- develop better awareness to assist in spotting the signs and symptoms of online abuse
- develop the ability to ensure pupils can recognise dangers and risks in online activity and can weigh up the risks
- develop the ability to influence pupils to make the healthiest long-term choices and keep them safe from harm in the short term

The DSL and deputies will undertake child protection and safeguarding training, which will include online safety, at least every 2 years. They will also update their knowledge and skills on the subject of online safety at regular intervals, and at least annually.

Governors will receive training on safe internet use and online safeguarding issues as part of their safeguarding training.

Staff will receive annual training and updates.

Volunteers will receive appropriate training and updates, if applicable.

More information about safeguarding training is set out in our child protection and safeguarding policy.

## **12. Monitoring arrangements**

The DSL logs behaviour and safeguarding issues related to online safety.

This policy will be reviewed every year by the Designated Safeguarding Lead. At every review, the policy will be shared with the governing board. The review will be supported by an annual risk assessment that considers and reflects the risks pupils face online. This is important because technology, and the risks and harms related to it, evolve and change rapidly.

## **13. Links with other policies**

This online safety policy is linked to our:

- Child protection and safeguarding policy
- Behaviour for Learning policy
- Code of Conduct Policy
- Staff Acceptable Use Policy
- Student Acceptable Use Policy
- Photography and videos at school policy
